### Description

---

This well known cruise ship was built in 1965 in East Germany and named for a famous Russian Poet. During her life as a cruise ship, she underwent several refits, but the most notable ones took place in 1991 when her engines were reconfigured by Sulzer Diesels and in 1994 when the vessel was gutted and rebuilt at a cost of US\$60+ million. Following this a near-total reconstruction of the ship commenced.
